

SCHEDULE OF ADMINISTRATIVE & NON-COMPLIANCE FEES

Effective:

Updated:

The following fees apply to the on-boarding, handling, maintenance, and administration of cannabis products and cannabis accessories ordered and sold by Cannabis NB ("CNB"). Each instance will be reviewed, and final fees issued based on complexity and/or severity of the instance.

- 1) **SHORT SHIPMENTS.** If the quantity received by CNB does not match the quantity noted on the purchase order, the supplier may face fines up to and including \$5000.
- 2) **INACCURATE SHIPMENTS.** If the products delivered to CNB do not match the products requested on the purchase order, the supplier may face fines up to and including \$5000, and products may be returned to the supplier at the suppliers sole expense and risk of loss.
- 3) **LATE SHIPMENTS.** Upon deployment of a shipment, an estimated arrival date and, if applicable, tracking number must be provided to CNB via email to cnborders@cannabis-nb.com. If shipments arrive 2 days or more after the estimated arrival date, the supplier may face fines up to and including \$5000.
- 4) **DATA INACCURACY.** a) If the data provided in the CNB Product Details excel grid does not match the actual attributes of the products shipped, the supplier may face fines up to and including \$5000. b) If the data provided in the CNB Product Details excel grid is incomplete, inaccurate, or misleading, the supplier may face fines up to and including \$2000.
- 5) **NON-COMPLIANT PACKAGING.** If the products delivered to CNB are not compliant with Federal or Provincial packaging and/or labelling regulations, the supplier may face fines up to \$5000, and at CNB's discretion and the suppliers sole risk and expense: a) the products may be returned to the supplier, or b) CNB may take corrective measures to bring such products into compliance.
- 6) **DATA ADMINISTRATION.** CNB may issue the Supplier an administration fee of \$250 per instance if:
a) product data or supplier data captured in the CNB database and/or displayed on the CNB website must be edited or translated, or b) the details for a product are captured in the CNB database and the supplier does not provide an allocation of that product within a reasonable amount of time.
